

Product Profile

Name:	UltraSorb – Bio-Active Adsorbent
Description:	A Complimentary Feeding Stuff for use in animal nutrition. A source of biologically active components designed to counteract the effects of a wide range of pre-formed fungal secondary metabolites and toxins present in feedstuffs by binding them into inactive or unavailable forms.
Function:	Helps to manage problems associated with fungal metabolites that can impact animal health, fertility and production
Application:	Ruminants: Administer 10g of UltraSorb per head per day as a top dress to feed or incorporate into total mixed rations (TMR). May also be incorporated into complete feed or mineral mixes formulated to deliver 5 - 20g of Ultrasorb per head per day. Consult your nutritionist for advice. Swine: Incorporate into complete feeds at the rate of 1 – 2 kg per ton of feed. Poultry: Incorporate into complete feeds at the rate of 1 – 2 kg per ton of feed.
Ingredients:	By descending order of inclusion: Sodium aluminosilicate, calcium aluminosilicate, dried <i>Saccharomyces cerevisiae</i> fermentation extract, dried <i>Saccharomyces cerevisiae</i> fermentation product, dried yeast culture, vitamin A supplement, vitamin E supplement, dried molasses, manganese sulfate, mineral oil.
Storage:	Store in a cool dry area in original sealed packaging. Keep bag closed when not in use.
Shelf Life:	Use within two years of date of manufacture.
Packaging:	Available in units of: 50 lb bags 25 kg bags
Typical Analysis:	
Microbial:	N/A
Nutritional:	
(% D.M.)	
Moisture	7.7
Crude fiber	1.4
Crude protein	8.8
Oil	1.8
Ash	77.0
Physical Characteristics:	
Color:	Brown and Grey Particles
Odor:	Mild Yeast
Texture:	Granular Powder
Bulk Densities:	0.80 – 0.86 g/cc
Manufactured By:	Micron Bio-Systems Inc, 2329 Old Buena Vista Road, Buena Vista, VA 24416 ISO 9001:2008 Registered Company No. FM 514328 AFIA Safe Food/Safe Feed Certified Facility No. 50065-001
